

Senior Product Manager

Permanent

London, UK

Up to £40,000 - £50,000 per annum

Who we are

At iPLATO we are more than a tech company. We are revolutionising the healthcare industry. We are committed to delivering powerful digital solutions that improve lives and have fun while doing it. Serving millions of patients and thousands of healthcare professionals every day, we are a leader in Health Tech.

Our digital solutions enable data driven patient engagement, personalised online consultation powered by machine learning and patient support to people living with diabetes, hypertension and epilepsy. Our aim is to connect patients and transform healthcare.

About the role:

Reporting to the Head of Product Management the Senior Product Manager will add immense value to iPLATO's service offering in the way of shaping, scoping and driving one of our key digital platform products.

The Senior Product Manager will look after the growth and health of the product and will be confident in driving the delivery of the roadmap within an agile environment.

Responsibilities:

- Managing the entire product life cycle from strategic planning to launch and operations.
- Leading and supporting Product Owners, UX/UI Design and Development team and ensuring everyone is clear on goals and deliverables.
- Proactively identifying, prioritising and resolving issues. Understanding risk and managing change when necessary to meet industry regulation and standards.
- Driving data collection and reporting on product KPIs to track progress and manage product performance.
- Writing EPICs and User stories, Refining and prioritising the product backlog and taking part in stand ups and retrospectives.
- Engaging with external stakeholders including patients, carers, clinicians and commissioners to shape product features in the right strategic direction.

- Driving market, competitor and user research to support with product roadmap planning.
- Communicating with internal stakeholders including marketing, sales and customer support, translating the larger strategic vision into deliverable roadmap releases.
- Working closely with other product teams, scrum master, developers and designers to deliver the product roadmap within timelines.
- Informing product positioning and promotion in terms of USPs, benefits and value.
- Supporting iPLATO business development in commercialising the product.
- Analysing and reporting on product KPIs and metrics.
- To be successful in this role you will need excellent communication skills to be able to present product value to internal and external stakeholders as needed. You will also share our passion for transformation of healthcare.

What we are looking for:

Essential:

- Graduate
- Experience working in healthcare, ideally with the NHS
- Exceptional presentation and communicating skills
- Experience as an Agile Digital Product Owner (ideally a CSPO or equivalent certification)
- Thrives on working in a dynamic and rapid growth environment
 - Outcome driven
 - Analytical and problem-solving aptitude
 - Team management experience

Desired:

- Online consultation and/or machine learning experience is a plus
- Experience using Jira and ideally Confluence

What we offer:

- A fully structured training programme to ensure that you are confident in your new role
- 25 days holiday plus bank holidays
- Company share option scheme and travel loan after probation is passed
- An amazing team and fun social calendar

If you are looking to make a difference and help transform the healthcare industry, please forward your CV and covering letter to careers@iplato.net ensuring that you write in the subject field 'Senior Product Owner'.
