

## **Mobile UI Designer**

**London, UK**

**Permanent**

**£38,0000 - £48, 0000 per annum**

### **Who we are**

At iPLATO we are more than a tech company. We are revolutionising the health care industry. We are committed to delivering powerful digital solutions that improve lives and to have fun while doing it. Serving millions of patients and thousands of healthcare professionals every day we are a leader in Health Tech.

Across this network our digital solutions enable data driven patient engagement, personalised online consultation powered by machine learning and patient support to people living with diabetes, hypertension and epilepsy. Our aim is to connect patients and transform healthcare.

### **About the role:**

Reporting to the Head of Product Management the Mobile UI Designer will be part of our myGP team and will lead the UI design of our already successful patient facing mobile app, myGP. myGP has experienced huge growth over the last 2 years and we are ready to move onto our next phase. We are looking for an Innovative and enthusiastic UI designer to take our app to the next level.

The main responsibilities will be to:

- Take ownership for the UI design of our patient facing mobile app (IOS and Android).
- Work with Product Owners/Managers, Scrum Master and Development team to design innovative solutions to our users' problems.

- Work alongside our Web designer, to ensure that the user experience is consistent and logical across both our app and platform.
- Work within an Agile environment, able to provide design for user stories within the rhythm of regular sprints.
- Confidently use prototyping tools and software to produce interactive prototypes.
- Design iterative user interface options and test them extensively with users to ensure that user needs are being met.
- Able to demonstrate and justify design choices backed up by theory, logic and data.
- Deliver clean and practical designs that aligns with the myGP brand guidelines.
- Brief and collaborate with the development team to make sure that designs are delivered as per the brief.
- Participate in ideation sessions/workshops and motivate others to think of the end user first.
- Maintain product Style Guides and Design Libraries.

#### Essential:

- 2+ years mobile UI design experience
- A portfolio that shows your design style and developed products.  
(Submissions without portfolios will not be considered.)
- Positive attitude, team player and good visual communicator
- Previously shipped commercial mobile products
- Excellent stakeholder management
- Expert knowledge of Sketch, Invision and Adobe Suite (or similar)
- Good knowledge of the Google and Apple design guidelines

#### Desirable:

- Excellent presentation skills

- InDesign, illustrator and After Effects experience
- Up-to-date with the latest UI trends, techniques, and technology

### **What we offer**

- An annual individual training budget of £1000
- 25 days holiday plus bank holidays
- Company Share Option scheme and travel loan after probation is passed
- An amazing team and fun social calendar
