

**Business Intelligence Analyst**

**London, UK**

**Permanent**

**£35 - £40 per annum**

**Who we are**

At iPLATO we are more than a tech company. We are revolutionising the health care industry. We are committed to delivering powerful digital solutions that improve lives and to have fun while doing it. Serving millions of patients and thousands of healthcare professionals every day we are a leader in Health Tech.

Across this network our digital solutions enable data driven patient engagement, personalised online consultation powered by machine learning and patient support to people living with diabetes, hypertension and epilepsy. Our aim is to connect patients and transform healthcare.

**About the role:**

We are looking for a commercially minded Business Intelligence Analyst to join us on our journey to simplify healthcare access for patients across the UK. This is a great opportunity for a confident and enthusiastic data specialist to build and drive the BI function. Working alongside a team of Product owners, you will provide valuable insight and analysis essential to the day to day decision making of the product direction.

Reporting to Head of product management, the main responsibilities will be to:

- Analyse complex data-sets and provide insights to stakeholders to support key business decisions and resolve problems.
- Collaborate with product and technology teams to design, build and deploy BI solutions (e.g. reporting tools) and tools to store data (e.g. OLAP cubes)

- Work with stakeholders to assess the viability of new projects or products through forecasting/projecting.
- Perform 'deep-dives' on areas of the business to deliver insights & recommendations as required.
- Produce product dashboards to display KPIs and track performance.
- Maintain and support data analytics platforms.
- Develop and execute database queries and conduct analyses
- Familiarity with BI technologies (e.g. Google data Studio, Tableau, Microsoft Power BI, Oracle BI)
- Knowledge of SQL queries, SQL Server Reporting Services (SSRS) and SQL Server Integration Services (SSIS)
- Promote and support our data governance regulation, practices and policies.

### **What we are looking for:**

#### Essential:

- 3+ years within a data focused position, utilising business analysis and business intelligence.
- Experience with data visualisation and building BI dashboards (Power BI/Cubes/SQL/Excel)
- Analytical mind with a problem-solving aptitude
- Relevant Bachelor's Degree in technical discipline

#### Desirable:

- Experience delivering within an Agile framework

### **What we offer**

- An annual individual training budget of £1000
- 25 days holiday plus bank holidays
- Company Share Option scheme and travel loan after probation is passed
- An amazing team and fun social calendar
